OK, I'll remove Pete's name from the list. In the future, should you or anyone else want this info, let me know and I'll add to the distribution list. Thx.

Ted,

I would suggest WSA is taken from the distribution until there is a clear scientific piece to the work. Regarding OSHA we (Robin Kinser and myself) are working with a WRA team and we would become aware of scientific events happening in States related to that process.

Thanks for your explanations,
Roger

Roger, it was really great to see you and finally "talk". Hope the interrogation was ok.

The weekly report was originally sent to the names listed as part of the old OSHA team as a way of seeing what was happening in the states regarding restrictions on smoking in public places.

That was about 2 years ago and keep sending per Denise's request.

Whomever is Pete's replacement to receive should probably be the individual who has OSHA as part of their responsibilities. Hope this helps. Thx.

Dear Ted,

It was great to meet you in KC. I hope your meetings went well.

Re this group activity: Can you help me to find out, who is heading this group and what the objectives are. After Pete Lipowicz left WSA we need to discuss whether WSA scientists can make a contribution to this activity. Is this group mainly or exclusively focusing on regulations?

PM3006532400

Thanks for your help in advance.
Roger

Irene, please fax to Leo Dreyer and Pat Tyson. Thx.

Smoking

(T) Vermont: HB.858, allows the Attorney General and Liquor Control Department to obtain financial information regarding income from the sale of food and the sale of alcohol, was introduced on 3/29 by the House Ways and Means Committee.

(T) East Greenwich, Rhode Island: -- The Town Council introduced an ordinance to ban smoking in restaurants on 3/14. A vote of 3-1 was received on second passage on 4/11. A third reading and final vote is scheduled for 4/25.

(T) Maine: LB.2533, creates a new category of liquor licenses for bowling centers, pool halls and off-track betting facilities allowing consumption of alcohol on these premises and specifies that smoking is not prohibited in these facilities under this new category of liquor license, was tabled in the House pending acceptance of ought to pass with amendment report on 4/3. If enacted, this measure will represent an incremental rollback of the 1999 restaurant smoking ban law.
